

Brazil

Regulatory Compliance Demystified

- Interested in selling your product to 200 million new potential customers?
- Concerned the complexities of Brazil's regulatory environment will hinder your product or technology from entering the world's 9th-largest economy?

February 28, 2017 | 9:00am – 11:00am | LA Area Chamber of Commerce
Cost per person: \$40

Invitation: Join the U.S. Commercial Service for an event featuring Brazilian accredited certification body Master Compliance (MC) as they demystify the intricacies of regulatory compliance in Brazil. We invite regulatory compliance managers, product development engineers, marketing and sales executives, and others interested.

Industries: Telecommunication, LED lamps, household appliances, IoT devices, UAVs/drones and HVAC. Any company with a product utilizing RFID technology, remote controls, and Bluetooth cannot miss this session.

One-on-One: Please indicate an interest and we will schedule an individualized consultation with MC's experts from Feb 28 to Mar 3.

About Company: MC is a Brazilian accredited certification body with over ten years' experience working with international companies to achieve compliance with the regulatory requirements of Brazil's *Anatel* and *Inmetro*.
